

AlphaTile-Backer board is a high-performance tile backer board for use in wet areas or areas with prolonged exposure to moisture such as bathrooms and kitchens.

Its high levels of mould and mildew resistance as well as its A1 fire rating make the Alpha Tile-Backer board a better environmental alternative and upgrade to traditional gypsum boards for walls, floors and countertops.

Features/Benefits

- A1 Fire Rated
- Sound Insulation
- Easy to Install
- Extremely Durable
- Thermal Value
- Range of Sizes
- Water Resistant
- Freeze-Thaw Tolerant
- Impact Resistant
- Non-combustible
- Environmentally Friendly
- Mould & Mildew Resistant

DURABLE

Alpha Tile Backer Board is extremely durable and, when fitted in accordance with our installation instructions, can take a combined hanging weight of tiles and adhesive up to 100kg/m².

QUICK

Alpha Tile Backer Board is much quicker to install than alternative products. It is installed using conventional fasteners and can be scored and snapped with a standard utility knife, whereas alternative products require special tools.

SAFE

Alpha Tile Backer Board is extremely light-weight making it easier to handle and install in tight bathroom and wet areas. Alpha Tile Backer Board contains no harmful silica. Backer boards containing silica are a health hazard to installers.
